

PROCEDURE for taking pictures of the outside of the building

In order to complete your claim and accelerate its processing, be sure to provide all the pictures listed below:

1. A distant view that shows the complete building.
2. An overview of each wall or part of the roof where the problem is located, including:
 - ▶ Front of the building
 - ▶ Right side of the building
 - ▶ Rear of the building
 - ▶ Left side of the building
3. Close-up pictures of the problem encountered on each wall with a problem. The pictures must clearly demonstrate the nature and magnitude of the problem.
